

## Jersey Triathlon Club

### Grosnez Castle 2UP Duathlon – 12 October 2014

If ever proof was needed that a higher being favoured Jersey Tri Club, then the Autumn weather holding out (ish) for the final race of the season was close enough. The start saw the competitors running a rocky 4.3k trail from Grosnez toward Plemont and back. Tom Perchard and Bruno Francisco were the first pair into the well-controlled transition area and soon off for the 27km bike course.

The rest of the field were in hot pursuit, noticeably Nathan Woodland and Mike du Feu who's tandem for two not only defeated the club's racking system but also the competition finishing 2 minutes ahead of everyone else.

The boys held it together for the second run finishing comfortably ahead of the field to win the final event of 2014. This final run was aided by 2 of the teams running a bit extra after missing a turn and running a bit further, with the only married couple team (Team Gorrod) running the fastest time.

The event was great fun and the tricky course made possible by the efforts of the marshals and planning of Vaughan, Matt and Simon. With the event now pencilled in for next year it was a great way to finish a wonderful season.
